

# Oracle Primavera P6 Training

## P6-102: Project Planning and Control using P6 Professional

This 2-day course provides the foundation for the use of P6 Professional PPM/EPPM. Participants gain a thorough knowledge in the concepts of planning and scheduling, project creation and administration, baseline assignment, project execution and control. Hands-on workshops help students create and track an entire project to completion.

**Software:** P6 Professional Project Management, P6 Professional for EPPM

**Prerequisites:** Fundamental Project Management Training and a knowledge of Windows™

**Targeted roles:** Program and Project Managers, Planners and Controllers

**Training Material:** English

**Course Language:** English
